

Oil Soluble Lubricity Additives

Product	Description	Applications
Lubristay 579	Phosphate ester of ethoxylated alcohol Alternative to chlorinated paraffins Excellent boundary and EP properties	Soluble oils, neat oils Synthetic and semi-synthetic fluids Machining, Stamping and Drawing
Lubristay 2000	High viscosity, high molecular weight Polymeric Ester Easily emulsifiable EP alternative to chlorinated additives	Soluble and neat oils Semi-synthetic fluids Machining of steel alloys and Aluminum
Lubristay SME	Methyl ester of soybean oil	Low fatty acid content High purity Good lubricant, penetrant & strong solvent
Lubristay LME	Methyl ester of vegetable fatty acids	Low fatty acid content High purity Good lubricant & penetrant
Lubristay 926	Petroleum resin	VI Improver, Viscosity builder Extender Quenching oils
