

Low Odor - Water Displacing, Oil Soluble Rust Preventives

Product	Description	Applications
Counter Rust LT-700E	Water displacing Rust Preventive Base Building block for rust preventives Blends of selected esters and waxes	Formulating of water displacing rust preventives and coatings
Counter Rust LT-807H	Water Displacing Rust Preventive Good Humidity cabinet protection Leaves a thin waxy film , Non-staining, low odor, light color <u>Congeal Point 40 °C - Barium free</u>	Mill Oils and Slushing Oils Rust Preventives and Coatings Soluble and Neat Oils Long term storage & In-transit
Counter Rust LT-809S	Water Displacing Rust Preventive Good Salt Fog protection Leaves a thin waxy film , Non-staining, low odor, light color <u>Congeal Point 40 °C - Barium free</u>	Mill Oils and Slushing Oils Rust Preventives and Coatings Soluble and Neat Oils Long term storage & In-transit
Counter Rust LT-811H	Premium water Displacing Rust Preventive Excellent Humidity cabinet protection Leaves a thin waxy film , Non-staining, low odor, light color <u>Congeal Point 40 °C - Barium free</u>	Mill Oils and Slushing Oils Rust Preventives and Coatings Soluble and Neat Oils Long term storage & In-transit
Counter Rust LT-813S	Premium water Displacing Rust Preventive Excellent Salt Fog protection Leaves a thin waxy film , Non-staining, low odor, light color <u>Congeal Point 40 °C - Barium free</u>	Mill Oils and Slushing Oils Rust Preventives and Coatings Soluble and Neat Oils Long term storage & In-transit
Counter Rust LT-815A	Water Displacing Rust Preventive Excellent protection in Acid Atmospheres Leaves a thin waxy film , Non-staining, low odor, light color <u>Congeal Point 40 °C - Barium free</u>	Mill Oils and Slushing Oils Rust Preventives and Coatings Storage in pickling plants
Counter Rust LT-821	Water Displacing Rust Preventive Excellent Humidity cabinet protection Leaves a thin oily film , Non-staining, low odor, light color <u>Congeal Point 30 °C - Barium free</u>	Mill Oils and Slushing Oils Rust Preventives and Coatings Soluble and Neat Oils Long term storage & In-transit
Counter Rust LT-825S	Premium water Displacing Rust Preventive Excellent Salt Fog protection Leaves a thin oily film , Non-staining, low odor, light color Calcium based - <u>Congeal Point 30 °C</u>	Mill Oils and Slushing Oils Rust Preventives and Coatings Soluble and Neat Oils Long term storage & In-transit
Counter Rust LT-837S	Premium water Displacing Rust Preventive Excellent Salt Fog protection Leaves a thin oily film , Non-staining, low odor, light color Calcium based - <u>Congeal Point 30 °C</u>	For Use in Paraffinic Oils Mill Oils and Slushing Oils Rust Preventives and Coatings Soluble and Neat Oils Long term storage & In-transit
Counter Rust LT-855H	Premium water Displacing Rust Preventive Excellent Humidity cabinet protection Leaves a thin waxy film , Non-staining, low odor, light color Barium based - <u>Congeal Point 40 °C</u>	Mill Oils and Slushing Oils Rust Preventives and Coatings Soluble and Neat Oils Long term storage & In-transit
Counter Rust LT-859S	Premium water Displacing Rust Preventive Excellent Salt Fog protection Leaves a thin waxy film , Non-staining, low odor, light color Barium based - <u>Congeal Point 40 °C</u>	Mill Oils and Slushing Oils Rust Preventives and Coatings Soluble and Neat Oils Long term storage & In-transit
