

## Soluble Bases - With Sulfonate

Product	Description	Applications
<b>EZ Mulz 4400N</b>	<b>Emulsifier base for Naphthenic</b> oils with aniline points of 150 °F - 175 °F Good corrosion protection	General purpose soluble oils In-process corrosion protection Safe for most metals
<b>EZ Mulz 4409N</b>	<b>Emulsifier base for Naphthenic</b> oils with aniline points of 160 °F - 180 °F Good corrosion protection	General purpose soluble oils In-process corrosion protection Safe for most metals
<b>EZ Mulz 4420N</b>	<b>Emulsifier base for 200 SUS Naphthenic</b> oils Good emulsification	General purpose soluble oils In-process corrosion protection Safe for most metals
<b>EZ Mulz 5325P</b>	<b>Emulsifier base for Paraffinic</b> oils with aniline points of 180°F - 210 °F Good corrosion protection	General purpose soluble oils In-process corrosion protection Safe for most metals
<b>EZ Mulz 5489P</b>	<b>Emulsifier base for Paraffinic</b> oils with aniline points of 185°F - 225 °F Good corrosion protection	General purpose soluble oils In-process corrosion protection Safe for most metals
<b>EZ Mulz 5610P</b>	<b>Emulsifier base for Paraffinic</b> oils with aniline points of 180°F - 220 °F Good corrosion protection	General purpose soluble oils In-process corrosion protection Safe for most metals
